

Ceramics Emerging Artist Program

The Workhouse Arts Center Ceramics Emerging Artist Program was developed to provide communal space for those serious students, emerging or pre-professional ceramic artists wishing to work beyond the classroom environment or looking for community studio space and interaction with other dedicated ceramic artists in a lifelong learning environment. The Emerging Artist program offers the emerging or pre-professional ceramic artists the communal space and time needed for personal artistic growth in a dynamically cooperative educational environment. The Emerging Artist Program also provides the serious ceramics student or artist an opportunity and ability to function independently and to refine and exhibit their work, expand on their educational experiences, and contribute to the growth and promotion of the cultural arts in our Community, fellow Artists, Students, Ceramics program and the Workhouse Arts Foundation. The state of the art facility comprising 8,000 sq. ft. with 5- 220sq. ft. ceramic artist studio spaces, a dedicated retail gallery space, classroom space, two indoor kiln rooms, outdoor gas kiln space w/ 32 Cu. ft. shuttle kiln, Raku kiln, raw materials lab, ball mill, clay mixing equipment, slab roller, extruder, and spray booth allows the artist to expand their use of a variety of tools and processes available for the ceramic artist.
